I met with Craig today at the site during and after his call with Steve Way. His mission to me was clear - get two people full time at the Mine to support. Surface water sampling by Mine Site personnel must be transitioned to sampling teams. I spent the afternoon/evening doing that without compromising what I understand our other mission support to Planning and Ops to be.

Hi Scott - I assume that two persons full-time at the mine are what the OSC wants.

Dave Robinson had also told me that a START person from Salt Lake City was mobilizing today and would be ready to work in Durango first thing tomorrow morning. Is that correct? Thanks!

Elliott will be on site Monday morning.

Dave Robinson is on his way to Durango now. He plans to cut someone loose from the sampling teams to address immediate needs at the mine.

Just for my clarification, will 2 full time STARTs at the mine site suffice if neither are involved in the river sampling?

Hi Scott - is Elliot Petri available to be one of the mine persons? Thanks!
